

FM 4040

Class 6 Wireless Interface

Wireless detectors can now be added to any wired panel

- Meets BS6799 Class 6 or Class 3 specifications
- 8 Alarm zones + fire zone & Panic zone
10 Separate zone outputs provide flexibility of connection.
Each wireless zone can be separately connected to your Central Control Unit.
- Remote control Arming / Disarming and Panic
The 4173 wireless remote control or 4180 wireless keypad enable remote arming / disarming of your central control unit. A Panic button by your bedside or anywhere functionally convenient.
- Compatible with the FM 4000 Series detector range
- User walk test
- Engineer programming and test features

Programmable features
